## SUMMARY

I'm a software developer with a strong base in programming, web development, Java application development and databases. I love learning and using new technologies. I'm looking for an internship or job where I can apply my skills and help with exciting IT projects.

## EDUCATION

### BCA

National College / Kathmandu / October, 2020 - Present

A Bachelor in Computer Applications (BCA) is a comprehensive undergraduate program designed to provide students with a solid foundation in computer science and its applications. This degree equips students with the necessary skills in programming, software development, database management, networking, and computer systems. It serves as a stepping stone for those looking to pursue careers in technology, software engineering, data analysis, or IT consulting. With the growing demand for tech professionals, a BCA degree opens up diverse opportunities in the ever-evolving field of information technology.

## WORK EXPERIENCE

### Jr. Software Developer

Umbrella Solution / December, 2024 - Present

Umbrella Solution is a dynamic software company that specializes in providing innovative technology solutions to meet the diverse needs of its clients. With expertise in .NET, C#, and React, Umbrella Solution leverages modern technologies to create robust, scalable, and user-friendly software applications. The company focuses on delivering high-quality solutions that drive digital transformation, enhance business operations, and improve user experiences. Working at Umbrella Solution offers valuable exposure to cutting-edge development practices and a collaborative environment where creativity and technical skills thrive.

## PROJECTS INVOLVED

### HamroNibas

HamroNibas is a cutting-edge Rental Management System that utilizes the MERN stack. I have integrated sophisticated algorithms to enhance the management of property listings, tenant interactions, and personalized recommendations. By leveraging the power of MongoDB, Express, React, and Node.js, HamroNibas aims to create a seamless and intuitive platform that simplifies the rental process for both landlords and tenants.
