Objective

Motivated IT student with hands-on experience in building web applications using React, Node.js, MongoDB, HTML, and CSS. Seeking an internship opportunity to apply my skills and contribute to meaningful projects while gaining industry experience.

Education

National School, Lainchour, Kathmandu

Bachelor in Computer Application

Technical Skills

- **Languages**: JavaScript, HTML, CSS

- **Frameworks/Libraries**: React.js, Node.js

- **Databases**: MongoDB, MySQL

- **Tools**: GitHub, VS Code, Postman

Projects

Rental Management System
Developed a full-stack rental management system with user roles (superadmin, admin, agent) for managing properties using React, Node.js, and MongoDB. Designed a responsive UI with Tailwind CSS.

Ambulance Management System
Built a web-based ambulance booking system, focusing on real-time tracking and efficient communication between users and drivers using PHP,HTML,CSS and MYSQL.

Achievements

Second Position – [Agri-Tech Hackathon]

Developed "Kridemy," an educational platform similar to Udemy, aimed at providing accessible learning resources. Worked with a team to deliver the project and secured second place.
